SHORT SYNOPSIS

> The City Has a Hold on You is an independent Deadlock fan campaign exploring the game's atmosphere, memorable heroes and shared player moments through a coordinated collection of artwork, editorial guides and community prompts.

EXTENDED SYNOPSIS

> The City Has a Hold on You approaches Deadlock as a place to discover and a cast to remember. The independent fan project brings together a master visual, three hero spotlights, a gameplay reading guide, social artwork, wallpapers and a screenshot challenge under one editorial identity.
>
> Infernus, Dynamo and Ivy give the collection three different points of entry: fire and momentum, control and timing, and the value of support. The campaign pairs expressive fan-created language with sourced information, making room for both curiosity and clarity.
>
> The collection is a creative exploration of Valve's game. It does not announce a release, distribute access or represent Valve. Readers seeking current game availability should consult Deadlock's official Steam page.
